

INTEGRATED DIGITAL SIGNAGE

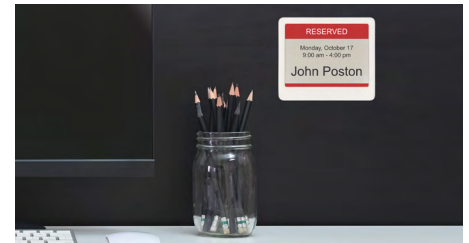

Visix Electronic Paper Signs (EPS)

Tango has partnered with Visix to offer intuitive and cost-effective options to enhance the workplace desk booking experience.

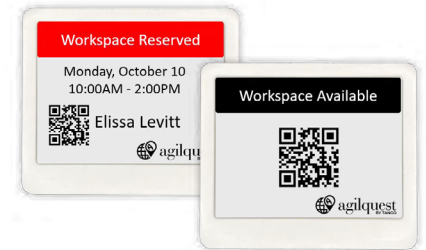

Intuitive Digital Desk Signage to Support the Dynamic Flexible Workplace

- Easily determine workspace availability at a distance with color-coded signs
- Increase collaboration and productivity by knowing where colleagues are sitting and when including reserved or permanently assigned seats
- Use QR codes to check-in, see upcoming availability, or book a space on the spot
- Save time, money, and eliminate waste by replacing printed signs
- Seamlessly integrates with the Reserve by AgilQuest solution to display reservation data, availability, and QR codes

Visix Electronic Paper Signs (EPS) Offer Cost-Effective and Customizable Options

- EPS signs use customizable templates that can be tailored to your organization's requirements
- Organizations can also brand the signs with custom faceplates
- Lightweight, wireless, and battery-powered
- EPS signs can be placed virtually anywhere because they do not require cabling
- Can be easily attached to desks, cubicles, or walls
- Multiple size and color options available

Visix Offers a Unified Digital Signage Platform

- Create a unified digital workplace by using Visix EPS for not only desks, but also for Conference Rooms, Meeting Rooms, and general Digital Signage
- Visix offers a Digital Signage platform to help you keep everyone updated using flat-panel displays placed in your high traffic areas
- Visix also offers wayfinding and directory signage that can be voice- or touch-activated, and content publication software to complement your total digital workplace experience
